I can describe a setting using adverbial phrases

day On the dusty, orange ground, the wealthy prince caresingly picked up the glimmering-shelled scarab beetle in his large hands. He looked at it lovingly before whispering something to it and letting it go. It walked slowly across the sandy body shining in the sun as it scuttled away quietly.

Well done, you clearly understand how to write adverbial phrases.

Continued 16.9.15.

night The bright moon stood over the sapphire-blue sea that steadily splashed around the boats. On the wooden boat the glittering beetle slowly scuttled over to the brown jug. It nestled in cosily as the benign waves glowed lightly under the dazzling beam of the moon.

night The old-schoined boats were rocking gently in the glowing, blue waves. A blue shiny-shelled beetle was climbing steadily into a basket of herbs and soo as the moon shone brightly over the water. The beetle slowly went to sleep in the cosy container as the sailors directed the boats through the calm ocean.

Beautiful descriptions Tristan. Lovely adverbial phrases.
