Mobile Phones– Just a reminder that we have a no mobile phone policy at Heathcoat Primary School to ensure the safety of all pupils and staff. Please ensure that mobile phones are NOT used on the school premises.

Internet Safety–The Internet is great. But it can be a scary place and you can sometimes end up seeing things, you wish you hadn't. Often this stuff can just pop up without warning. If something online has upset, worried or scared you, don't panic, there are things you can do. For more information visit <https://www.bbc.com/ownit/its-personal/when-you-see-something-scary-online>

The Samaritans encourage parents and adults who work with young people to talk to them about their online activity. Let them share what they're playing or looking at, rather than asking them if they are playing a specific game, as this may draw their attention to it.

The UK Safer Internet Centre encourages open and honest conversations with young people about the kind of content they could encounter online, and to ensure children know what to do and who to turn to if they do come across something that makes them feel worried or upset. It is also important that we safeguard the young people in our care.

Their website contains really useful tips, advice and resources for professionals and parents to help children and young people have a safe and positive time online. There are some good sources of information and advice for schools and parents. For more information visit <https://www.saferinternet.org.uk/advice-centre/parents-and-carers>

Congratulations to the following pupil who have demonstrated their building learning powers in various different activities outside of school.
